

ALWAYS WEAR PROTECTIVE GOGGLES AND GAUNTLETS.  
ONLY TO BE OPERATED BY TRAINED STAFF.  
EMPTY, CLEAN AND REFILL YOUR TANK EVERY MONTH.

INSTALL & FILL THE DECARBONIZER

Install tank to your desired location on site.

Fill tank with clean water up to fill level (indicated on inside of tank)

Add required amount of detergent for tank size.

DRAIN, EMPTY AND CLEAN THE DECARBONIZER

Make up drain hose as supplied (only if emptying to foul water drain).

Attach hose to tank drain tap.

Place hose into foul water drain and open tank drain tap.

Wait for tank to empty, rinse tank clean and repeat process.

IMPORTANT

- Empty, clean and refill your tank every month.
- Ensure water in tank is topped up.
- Do not turn The Decarbonizer off.
- Never attempt to move The Decarbonizer.
- Only use approved non-caustic detergent.
